

How Can I Find Pastor's Messages On iTunes?

If you do not have iTunes already you can download it for FREE at <http://www.apple.com/itunes/download/>
It is available for both Windows and Mac.

When you start iTunes it will look like something the screen shot below. If not click on the **iTunes Store** link on the left side of the screen

Type **bethalto** in the Search iTunes Store window in the upper right corner and press enter or return.

The screen should look similar to this one below.

You can also see Cornerstone Church listed here. You can either double click on the link in the lower window or you can click on the button with the Cornerstone Logo. Either one will take you to the list of messages. It might take a few seconds to load but it should bring up a list of messages sorted in some order like the picture on the following page.

The screen should look similar to this one below.

You can play any of the messages simply by double clicking on the title or highlighting the message and clicking the play button. The list can be sorted by clicking on any of the column headings. If you click the heading again it will sort in the reverse order. You can also Subscribe to the podcast and it will automatically download the new messages as we add them to the iTunes list. If you subscribe the podcast will be added to your podcast listing. The podcast listing is found on the upper left side of your iTunes program.

You can also create and burn your own CD from the iTunes program. You must create a play list such as the one shown below with Pastor's favorite message. After you create the playlist you right click on it and choose Burn Playlist To Disc. It will prompt you to put a blank CD in the drive and then burn it. More information about iTunes is available from the iTunes Help drop down menu.
